**Way To Paris (GB, H7, Gray)**

Departed quarantine stables at 11:00  
Arrived at Tokyo Racecourse at 13:16

“The transportation from the quarantine stables went very smoothly and he was very calm—better than the flight over here. It is his first overseas campaign, but he has adjusted to the climate so far and all he needs to do is get used to the new atmosphere here at the racecourse. He galloped on Tuesday at the quarantine center, according to the instructions from our trainer, so he will only do a light canter on the dirt course tomorrow.”
