INTRODUCTION of HORSE RACING IN JRA

Welcome to Turf of Dreams

Spring, Summer, Autumn, and Winter.
There are beautiful seasons here.
There is nature, history, and culture.
There is tradition, cuisine, arts and crafts.
And here, horse racing is on.
There are great opportunities to meet the best riders and
horses from all over the world, glorious moments,
enthusiastic cheers and endless applause here.
In Nippon, there are races to be run and goals to be
grasped by great horses and great riders.
Let's go to the wonderful dream of horse racing.

With a history of over 150 years, Japan's modern horse racing, JRA holds a wide variety of races every weekend throughout the year, including Imperial Award Races and classic races modeled after British horse racing. With a clear system, fair and strict rules, and modern and beautiful facilities, Japanese horse racing is loved by the public. Horsemen from all over the world appreciate the large prize money and bonuses, the well-maintained tracks and training facilities, and the sense of unity between spectators and racing.

In autumn, we hold the Japan Autumn International, a series of four Grade 1 races centered around the Japan Cup which the total prize money has increased to 1.08 billion yen. We are looking forward to seeing the best horses that have won top races around the world compete in heated races in Japan. In addition, a new international stable opened last year at Tokyo Racecourse that will allow horses to enter directly from the airport, enabling them to race at Tokyo Racecourse in better condition than ever.

If you require any further information or have any questions regarding your trip to Japan, please do not hesitate to contact one of our overseas representative offices. We look forward to welcoming you to the racecourse in Japan.

President and CEO
GOTO, Masayuki

Horsemen around the world experience
beautiful moments here in Japan.

Jockey's voices around the world

Interview videos of world-class jockeys

**“Turf of Japan is so good and very safe.
Amazing grandstand, amazing track.”**

- Lanfranco Dettori -

The track and the grass condition at Tokyo Racecourse are usually impeccable.
For the 2400 race, it usually has over 16 runners so it's run at a good tempo.
That's why the time is always very fast and it is a very fair track, more than 500m homestretch and gives every horse a chance to win.
You have better grass and you can take the rain. You have new facilities, and new drainage, that is why the turf is so good. Very safe.
You have amazing followers, You have an amazing grandstand, an amazing track. I've been coming here a long time so I love the culture, I love the food.
I think Tokyo is very exciting so I like not just racing but I like being here.

“Japanese fans really love racing and they welcome us.”

- Ryan Moore -

All the tracks in Japan, all those quite big, wide-open racetracks, they have to accommodate the runners. Typically, the ground is quicker.
All the tracks in Japan are man-made, so it's got the great drainage so the tracks never get really deep.
I remember the Japan Cup one year and it just hammered down. Come race time and it stopped and it was loose and sloppy, but the ground was still good.
You have to be a real champion to come from abroad to win here.
The Japanese fans love their horses. Some of the fans have flags or banners, supporting certain jockeys, trainers or horses or owners. And the best thing about being in Japan is the food.
It's like an art, It's always quite homely.

**“Everything is very cool in Japan.
We never see the fans like this. I like it a lot.”**

- Cristian Demuro -

I think it's a good track for invited European horses. I think they just have to come from Europe and try because it's a big track and like Europe.
Horse racing in Japan is fantastic. We've never seen the fans like this. When you go to the racetrack, here in Japan they ask you to sign and they come to see you.
In Europe, it doesn't happen like this.
Really good organization when you gallop the horse.
Everything is very cool in Japan. I like it a lot so I will try to come again.

“You can feel a real love for the horse from the fans too, which for me is the most important thing!”

- Hollie Doyle -

Racing in Japan has one of the best executed raceday experiences in the world.
Whether it be from a jockey, trainer, owner or racing fan's perspective.
The tracks are immaculate and the ability to accommodate full field races each weekend is outstanding.
You can feel a real love for the horse from the fans too, which for me is the most important thing!

International stable

Features for Japan Cup
“Japan Cup Experience”

Through the eyes of
World-class jockey

Characteristics - safe & well-maintained -

1: Even (Flat) track with few undulations (only 2.7m difference)

2: The grass used is Noshiba grass, a local variety, with Italian Ryegrass overseeding, or, ryegrass planted over Noshiba grass in autumn/winter season to add cushion and color. The mowing height of the grass is over 12 cm. Noshiba grass has stolons growing in horizontal direction and upright stems connected to the stolons which makes the turf track durable to damages (Fig.1). It is also strip resistant, with a good grip which makes it easier for the horses to run with speed. Further, due to frequent rainfalls in Japan, the base is made from gravel and crushed rocks with extremely well drainage to maintain best track condition (Fig.2).

3: Track maintenance on raceday is performed by some 150 staff divided into 13 groups. After each race, they check the turf track and repair the turf stripped by the horse hooves to provide fair and even track for the safety of the horses and the jockeys (Fig.3).

In recent days, aeration of the turf track is being held by machines such as Verti Drain (Fig.4) and shock waves (Fig.5) in order to improve and add more cushion to the turf. Turf track is softer, with better cushion compared to track condition back in the 1990s.

Quarantine Centers

QUARANTINE CENTERS BEST HOSPITALITY for YOUR HORSE

INTERNATIONAL STABLE AT TOKYO RACECOURSE

For races at **Tokyo Racecourse**

A new International Stable has opened at Tokyo Racecourse in Autumn 2022 to welcome overseas horses and horsemen. Horses can enter the stable directly from the airport for the quarantine and stay there until the race. Each barn has a dedicated grass paddock, air conditioning and remote monitoring system of the horse. The nice setting with brand-new facilities will ensure your horse settles quickly and smoothly in the new environment in Tokyo. The JRA's skilled professional team, including a veterinarian and farrier, will be on-site to support you during your stay. And there is a facilities where stable staff can take a break.

Facilities

The International Stable, surrounded by a 300m exercising Dirt track, has 6 barns. Each barn houses 2 horses and has a grass-picking area, monitor, tack room and a space for staff to rest. Up to 12 horses can be accommodated at the same time.

Exercising and track work

There are 3 tracks (300m exercising Dirt track, Dirt course and Turf course*) which can be used for training depending on the progress of the quarantine and the availability of the courses. Schooling of the racecourse will be permitted.

* Turf course will be available only after the import quarantine period has ended.

Transportation time by horse van

From Narita International Airport: 100km/62.1 miles 2 hours

OTHER QUARANTINE CENTERS (excluding races at Tokyo Racecourse)

We also have quarantine and stay bases in two locations in the east and west of Japan. Both options have good access to the airport and racetracks, and are fully equipped with accommodations and training tracks. We promise a comfortable stay for racehorses and training staff.

Via **Narita International Airport**

Horse Racing School

This quarantine center is located on the premises of Horse Racing School, about 60 minutes by horse van from the Narita International Airport. The facility offers a dirt training track of 1,400m (about 7 furlongs) in circumference and 17m wide.

Transportation time from Horse Racing School Center to
Each Racecourse / Airport by horse van

From Narita International Airport:	50km/31 miles	1 hour
To Nakayama Racecourse:	10km/6.2 miles	0.5 hours
To Chukyo Racecourse:	372km/231 miles	5.5 hours
To Hanshin Racecourse:	550km/343.5 miles	10 hours

Via **Kansai International Airport**

Miki Horseland Park

This quarantine center is located on the premises of Miki Horseland Park, a public operated foundation in Hyogo Prefecture, in the western part of Japan. The facility offers a dirt outer track of 880m in circumference and 10m wide, and a smaller inner track of 627m in circumference and 10m wide.

Transportation time from Miki Horseland Park to
Each Racecourse / Airport by horse van

From Kansai International Airport:	150km/93.5 miles	2 hours
To Chukyo Racecourse:	225km/139.5 miles	3 hours
To Hanshin Racecourse:	50km/32.5 miles	1 hour

See the quarantine section of horsemen's information (on pages 37-38) for more information.

Horsemen's Information

(As of January 2023, Japan Racing Association)

I. EXPENDITURES

As a general rule, Owners of participating horses will be entirely responsible for all travel, accommodation, quarantine, isolation and all incidental costs associated with themselves, their horses, Trainers, Jockeys, and stable staff.

However, the JRA will provide the following expenses:

1. Van transportation expenses between the International Airport and the Quarantine Center and the Racecourses in Japan.
2. Stall fees at the Quarantine Center and at the Racecourse.

II. TRAVEL AND ACCOMMODATION FOR JAPAN CUP

For invited overseas horses for the Japan Cup, the JRA will provide the following:

1. Air transportation between Japan and the point of embarkation / disembarkation for the horse and two attendants (economy class).
2. Return business class air tickets for Owner, Trainer, Jockey, and their spouse / partner (Not transferable).
3. Five nights accommodation (one room) for Owner, Trainer, and Jockey at JRA Official Hotel.

III. TRAVEL SUBSIDIES

For Grade 1 races listed on pages 13-25 in this guidebook, the JRA may offer travel incentives for particular overseas horses taking into consideration factors such as the horse's International rating.

Please contact our Representative Offices for details.

IV. OWNERSHIP

1. Payment for Ownership and Colors Registration

- | | |
|--|-----------------------------|
| (a) Application Fee for Ownership | JPY 10,000 |
| (b) Application Fee for Colors | JPY 3,000 |
| (c) Owner Registration Tax | JPY 90,000 |
| (d) Declaration Fee* (for 3yo+ G1 races) | JPY 300,000 ※see p.34 VII-3 |

**(a), (b), and (c) are necessary only for the Owners making registration for the first time after 1st January 1999. Once registered, this registration is valid throughout the period the Owner is registered as a JRA Owner, and the payment is necessary only once.*

Payment of (a)-(d) must be remitted by noon, Friday, one week prior to the race day, Japan time. Please be sure that payment is made in Japanese yen. **All bank charges and commissions (including paying bank charges) are to be paid by the owner.**

The designated bank details are as follows:

Account Holder : JAPAN RACING ASSOCIATION
Account Number : 0005-001-7834038
Bank : MUFG Bank, Ltd. Head Office, Tokyo, Japan
Bank Address : 2-7-1 Marunouchi, Chiyoda-ku, Tokyo, Japan
Swift Code : BOTKJPJT

Please fill in the name of your horse and race on the message section of the application for foreign remittance transactions so that the JRA can confirm from whom the bank transfer was sent.

2. Owner's Name

The JRA Rules of Racing only allows the name of **ONE** Owner per horse as registered name.

3. Ownership Change

In case of a change in the Ownership of a participating horse, the new and old Owners must report to the JRA at least one day before the declaration, accompanied by the documentary evidence such as an Ownership Registration Certificate issued by the horse racing authority of the country represented, or the sales contract.

After a horse is drawn into a race, there shall be no transfer nor assignment of any Ownership interest in such horse until after the race, or until such horse is scratched from the race, if sooner.

V. PRIZE MONEY

All Prize Money will be wholly awarded to the single nominated Owner, who is registered with the JRA, for participating horses. Any split in prize money that reflects multiple Ownership is a matter of private contract or agreement between those Owners. The JRA also does not deduct any percentages for Trainer, Jockey, and stable staff from prize money. Prize money will be paid in JPY to the Owner per exchange rate at that time.

VI. TAXATION

a) Income Tax and Corporation Tax (for the money and prizes earned in Japan)

1. Owners are not obliged to pay tax in Japan. However, there is a possibility that an Owner who holds permanent establishment (i.e., office) in Japan would pay tax as a self-assessment.
2. Trainers are not obliged to pay tax in Japan.
3. For Jockey, Exercise Rider and Groom, twenty percent (20.42%) tax will be deducted at the source on money and prizes earned by the individual.

b) Consumption Tax

Any person who had taxable earnings exceeding JPY 10 million in Japan during 2021 or has paid any salary, allowance, or pension for retirement exceeding JPY 10 million to resident of Japan from January to June of 2022 is obliged to pay by self-assessment a consumption tax of ten percent (10%) on the money and prizes of 2023. It is each individual's personal responsibility to file tax as appropriate to their status.

"Customs Duty"

The law of Japan requires that a customs duty of JPY 3,400,000 is to be levied per horse for any racehorses temporarily imported within the borders of Japan (TPP customs duty may be applied). This customs duty is waived for horses that are planning to race in Japan, under the precondition that the horse is again exported as promptly as possible after the race.

Owners must deposit the above mentioned money as bond with the customs house during the period of stay in Japan. This money will be returned when the horse is again exported from Japan following the race.

VII. DECISION OF RUNNERS

1. Selection of Runners

Entries and participations in the JRA races are subject to the JRA Rules of Racing. Candidate horses for the race will be assessed on their relative merits by the JRA Selection Committee. The JRA has the sole authority and discretion in determining the selection, and the decision of the JRA shall be final. The confirmation of intention to participate and the ability of the horse to meet the schedule of timing necessary for pre-race quarantine will be considered for the selection. The JRA reserves the right to make additional selection from horses which can complete the necessary formalities and logistics in time to participate in the race.

2. Declaration to Run

Trainers are required to declare their horses to run at the prescribed time for each race. It is essential that any special equipment to be carried by the horse is also declared on the declaration form. If a horse is to run with blinkers, a declaration that it is to do so must be made. When a horse has been declared to run with blinkers, they shall be worn, and when no declaration of blinkers, they must not be worn by the horse during the race.

Some equipment may not be allowed to be used without prior permission and therefore, please contact JRA stewards in advance.

3. Declaration Fee

Declaration Fee must be remitted to the bank account designated by the JRA. It will NOT be refunded after the horse is declared to run.

For G1 races (excluding 2yo races) :	JPY 300,000
G1 races (for 2yo) and G2 races (excluding 2yo races) :	JPY 100,000
G2 races (for 2yo), G3 races :	JPY 50,000
Other Races :	JPY 30,000

4. Scratches

Scratches in JRA racing, which are solely based on the opinion of the Owner or Trainer, for reasons of weather, or change in track conditions are not permitted on or after the deadline for declaration.

Scratches are only possible after receiving the approval of the stewards of the meeting through the submission of a document certifying to any accident to, or disease of the horse.

VIII. CONDUCT OF RACING

1. Licensing

Visiting Trainers and Jockeys are required to attend a licensing interview with the JRA stewards for the issuance of their license upon his/her arrival. All trainers and jockeys who are granted a license agree to be bound by the JRA Rules of Racing.

2. Starting Gate

(1) Starting gate examination

In JRA races, all runners must pass a starting gate examination before declaration. The starter checks and judges that the horse has performed the sequence of entering, standstill and breaking out at least twice without any problems.

(2) Lead pony, barrier blanket and Assistant starter (gate crew)

JRA does not permit the use of lead ponies and barrier blankets. There is also no assistant starters situated inside the starting gate in order to keep the horse in check.

However, a groom with the starter's permission may enter the starting gate and calm the runner in front of the door until the other runners have entered the gate.

(3) Entry procedure

Generally, runners enter the gate in the following order:

- 1) odd-numbered runners
- 2) even-numbered runners
- 3) the highest-numbered runner

However, horses with blindfolds or those horses with bad records at loading may be loaded first no matter whether the draw is odd or even. Should there be an unruly horse with the highest number, the starter may decide to load the horse with the second highest numbered last. The last runner to enter the gate must be entered by the JRA official.

*The jockey must take off the blindfold immediately once the horse enters the gate.

3. Race Day Schedule (Trainers, Assistant Trainers and Grooms)

(1) Saddling Enclosure

The time schedule differs depending on the each race, so please make sure to check the saddling area meeting time in advance and take horses to the saddling enclosure by specified time.

(2) Saddle Inspection

The pre-weighed Saddles must be inspected again at saddling enclosure by trainers (or representative) or jockeys are required to weigh the saddle after the saddling time of the race.

(3) Leading to Starting gate

As a general rule, runners must be entered gate by JRA official. If you want your runner gated in by your own stable staff, you must inform JRA official in advance and obtain permission from the starter.

(4) After the race

Trainers must remain in the weighing room from the time of finish until the race is official. The steward or starter may call the trainer to interview about the events during the race.

(5) Post-race testing

The first three placed horses, and horses designated by the stewards of the meeting, must report to the sample (for blood or urine test) collecting enclosure.

(6) Post-race official veterinary check

After the race, the horses must be examined by a JRA veterinarian and be washed eyes at the clinic before returning to their stalls.

4. Insurance

a) JRA will not be responsible for horse insurance and connections are advised to make their own insurance arrangements for horse.

b) **All visiting horse connections (Owners, Trainers, Assistant Trainers, Travelling Head Lads, Exercise Riders and Grooms) are strongly recommended to arrange their own insurance to cover travel, work, non-work injury and illness.**

c) All visiting jockeys will be covered by the JRA's accident compensation policy during under the control of the JRA.

5. Nosebleeding (Epistaxis)

When a horse bleeds from the time of saddling area meeting until leaving course, the JRA Rules of Racing prohibits the horse from racing in the JRA races for one month for the first offence.

IX. MATTERS TO BE NOTED IN RELATION TO JOCKEYS

a) The Jockeys to ride in the JRA races must enter and stay in the **Jockey's Quarter at the racecourse** designated by the JRA by 9:00 PM on the previous day of that race meeting day. (For the Japan Cup, the Jockeys must stay at accommodation facilities designated by the JRA from 9:00 PM on the previous day of the race.) This is done to uphold the integrity of racing.

b) A Jockey must ride in a race carrying the officially announced weight. The safety vest is mandatory and 1.0 kg allowance will be applicable. For example, if the announced weight is 57.0 kg, the Jockey has to ride the horse at the weight of 58.0 kg.

c) A Jockey must ride in a race with the safety vest and helmet approved by the Steward of the Meeting.

d) A Jockey must wear one described in the Guideline Standards of Riding Equipment, International Agreement on Breeding, Racing and Wagering.

• Safety Vests

- JRA Standard (DESCENTE)

- European Standard EN13158:2000 Level 1~

- Australian Standard ARB 1998

- British Standard Satra Jockey Vest Standard Document M6 issue 3

- USA Standard ASTM F2681-08, ASTM F1937

• Skull cap (Safety helmet)

- JRA Standard (ARAI)

- European Standard EN1384:1996~, PAS015:1994~, VG1 01.040 2014-12, UTAC/CRITT 04/2015, 89/186/CEE, 89/686/CEE

- Australian Standard AS/NZS 3838 2003~

- USA Standard ASTM F11 63-01~, SNELL 2001~

e) A Jockey must not wear the pants which the logo of the advertising purpose printed. Only your own name or national flag is allowed to print.

f) Only whips that meet the following requirements may be used in a race.

- A whip which is 77 cm (approximately 30 inches) or longer is prohibited from being used in Races.

- Only padded whips whose pad is covered by shock absorbing material can be used in Races.

- The Pad must be longer than 17cm and its width is no fewer than 2cm nor more than 4cm.

- The surface of the pad must be smooth with no protrusion.

- The padded segment must not contain any additions.

g) A jockey who is to ride in a race must undergo weighing out at the weighing room during the time between 70 minutes before the post time of the first race to be held at the racecourse concerned on the day when the race concerned is to be held and 50 minutes before the post time of the race (saddling time of the race) in which the jockey is to ride in. In the weighing room, there is an adjustment scale to check the weight of the saddle. After preparing the saddle set to be used in the race, the weight must be pre-checked at the adjustment scale and then weighed at the scale of the clerk. The scales in the weighing room and in the paddock show the equivalent of a safety vest, with 1.0 kg deducted from the start.

h) The jockey's weight must be weighed when taking the weighing out. In addition, the jockey's weight must be checked at the paddock (or weighing room) prior to riding in each race. If the jockey's weight exceeds the weight announced at the previous weighing, the jockey will be sanctioned and may be changed to a different jockey.

i) A jockey, after entering the track, must walk his/her horse at a walking gait and pass in front of the steward's stand (goal board). In the case of a race on a turf course, the horses shall warm up at the outside of the course to protect the turf.

j) A jockey should immediately assemble his/her horses as the red flag is waved at the starting point approximately 4 minutes prior to the start of the race.

k) The jockeys of the horses up to the 7th order of arrival and also the jockey of a horse especially designated by the steward, must undergo weighing in immediately after the race concerned is finished. In the case where the placing is determined by photograph, the weighing in may be ordered for 8 or more jockeys. All jockeys should remain in the weighing room until the race will be official.

l) The types of sanctions that JRA may impose on a jockey include: prohibition or suspension from involvement in horse racing in Japan, suspension, fine, and reprimand.

m) Urine samples may be collected from randomly selected jockeys and tested for doping for prohibited substances (stimulants, marijuana, narcotics, psychotropic drugs, beta 2 agonists, beta blockers, and diuretics). A breath test may also be administered for alcohol testing.

X. QUARANTINE PROCEDURES

The Animal Health Requirements may have changed. Please ask your country’s government for details.
All quarantine procedures are based on the special animal health protocols agreed upon between the government authorities of each country and the Japanese Government. Import is thereby under the conditions that the horse will be temporarily imported to Japan to run in a race and will immediately undergo export quarantine after the race.
Under the quarantine conditions applied to overseas trained horses, the Government mandates that the period of stay of a horse in Japan shall be 60 days or less (from the day of release from import quarantine up to the day before export quarantine).

The following quarantine procedures will take place:

- a) Upon arrival at the international airport, horses must be immediately transported to the Quarantine Center. Japanese Government quarantine officers carry out individual quarantine procedures for the participating horses. However, horses arriving on the same plane will normally be tested together.
- b) The import quarantine period is a minimum of **seven days** (arrival and departure date to and from the quarantine is included in the quarantine period). Transportation to the Racecourse is allowed only after the completion of import quarantine. It is necessary to clear all the tests that are required by the Japanese Government during the quarantine period.

1 st day	2 nd day	3 rd day	4 th day	5 th day	6 th day	7 th day
Arrival In Japan	← QUARANTINE PERIOD →					Move to Racecourse*

*Except Tokyo Racecourse

- c) During the quarantine period, horses must follow the training timetable designated by the quarantine officer.
- d) During the quarantine period, Grooms and Exercise Riders must enter and exit the Quarantine Center according to the separately established Standard Operation Procedure.
- e) On the last day of the quarantine period, the tests that are required by the Japanese Government will be conducted.
- f) After being cleared from quarantine, necessary follow up measures will be instituted at the racecourse for epidemic prevention.
- g) The export quarantine will be conducted at the racecourse. The period is one day or less. However, this is not applicable in cases where the Government of the importing country (e.g. Australia) requires more days of the quarantine period than that which is prescribed by the Japanese Government.

XI. VACCINATION AND EQUINE INFLUENZA TEST

Vaccination requisite is based on the animal health requirement agreed upon between the government authorities of each country and the Japanese Government. Export quarantine requirements prior to the departure from the country, should also be ascertained in advance from your respective Government Departments and you should follow their instructions for the necessary vaccinations since certain countries require particular re-entry procedures.

Although the JRA will be pleased to respond to any inquiries you might have on this topic, please also ask your country’s government for the latest information.

Equine Viral Arteritis Vaccination

If you wish for your horse to remain in Japan for breeding purposes, In the case whereby a horse tests positive for antibodies of Equine Viral Arteritis (EVA) after participating in the horserace, that horse will not be able to remain in Japan for breeding. Therefore, please DO NOT vaccinate against EVA.

West Nile Virus (WNV) Vaccination

This is especially important for North American horses, and European horses planning to come to Japan after running in North America. The conditions for each of these horses are different based on the areas which they have visited or transited, the length of these visits and so forth. Please take a look at the following requirements.

Any horse which, during the last 60 days, has been in an area which has had an outbreak of West Nile Virus (WNV), must be vaccinated against that virus, or must be certified under the conditions set forth by the Government of Japan, prior to entering Japan.

Japanese Encephalitis Virus Vaccination

Aside from the requirement established by government, the JRA strongly recommends that the overseas trained horses which participate in the races held in our jurisdiction from July to October to be vaccinated against Japanese Encephalitis (JE) virus with an acceptable inactivated vaccine before coming to Japan. The JRA does not take any responsibility for any horses coming to Japan during this period without being inoculated with the

necessary vaccine protection from JE. Although it is also possible for the JRA to provide the vaccine required for inoculation prior to the horse coming to Japan, owners should ask the respective authorities in their own country about import procedures and permission for use of the vaccine overseas.

Equine Influenza Vaccination

As above the animal health requirement agreed upon between the government authorities of each country and the Japanese Government should also be ascertained in advance, reference example of requirements are given below. (As of April 2022)

~France, Germany, Ireland, Italy, the United Kingdom, the United States of America, Canada, Australia, Hong Kong, the United Arab Emirates, Qatar, Singapore and Republic of Korea~

The international racehorse must be vaccinated against Equine influenza between 21 and 90 days before shipment to Japan either with a primary course or a booster.

~Australia~The international racehorse exported to Japan must be vaccinated against Equine influenza on two occasions at an interval of 3 to 6 weeks (or once in the case of booster), and as per manufacturer’s instructions, within 6 months immediately prior to shipment to Japan.

It is important that all vaccinations a horse has been administered must be recorded in its passport. The JRA’s veterinarian judges whether a horse is vaccinated or not only through the description in the passport.
Therefore, please ensure that all the records are completely written in the passport especially immediately after vaccination.

Equine Influenza Test

As follows:

All horses should have a nasopharyngeal swab taken within 5 days prior to export and the sample should be tested using a RT-PCR or antigen detection test (e.g., espline) .

Racehorses to remain in Japan after participating in the international horserace in Japan

If you wish for your horse to remain in Japan for breeding purposes, you must consult with JRA and the transport company as soon as possible. In this case, Contagious Equine Metritis (CEM) and other tests will be conducted after participating in the horserace. Duties will not be refunded.

XII. FEED, BEDDING AND WATER

1. Feed and Bedding

Feed, supplements, and bedding while in Japan will be provided by the JRA. Select the feed, etc. you wish to use from the “LIST OF FEED AVAILABLE IN JAPAN,” which will be handed to you separately, and submit it to the JRA representative office in advance. Bringing in feeds and supplements that cannot be substituted for the products on the list may be allowed if all of the following conditions are met.

- a) “Feed Exportation Form for Travelling to Japan,” which is an application form for Bringing in feed, etc., has been filled out and submitted it with “LIST OF FEED AVAILABLE IN JAPAN,” to JRA in advance for approval.
- b) The feed and/or supplements were given to your horse regularly and right up to until arrival in Japan.
- c) Compound feed and supplements must be unopened and each product should be of same Lot and/or Batch numbers with the date of manufacture. If the above requirements cannot be met, the feed and/or supplements intended to use must undergo prior physico-chemical tests by the Laboratory of Racing Chemistry (LRC).

If prohibited or restricted drugs is detected in the post arrival sampling and is suspected to be derived from the feed or the supplements brought into Japan, the trainer cannot use their carried-inn feed and supplements other than those which have already passed prior physico-chemical tests conducted by the LRC.

The feed and bedding used during airfreight travel must be disposed of upon arrival at the airport in Japan. Any other feed (without prior notification and approval by the JRA) brought into the country must be kept in the JRA’s custody until after the race.

2. Quarantine Precautions for Feed Imports

If you wish to import feed or supplements for your horse to Japan, you may be required to obtain a phytosanitary certificate issued by the Agricultural Department of your country. In addition, upon arrival in Japan, feed or supplements, must be cleared by the Plant and Animal Quarantine Department and Customs. Please be noted that it may take time to go through these procedures.

Therefore, if your horse must have feed or supplements that cannot be replaced by the JRA provisions mentioned in “ List of Feed Available in Japan ”, please contact the JRA Representative Office as far in advance as possible. Please note that if you fail to notify our office as far in advance as possible, you may not be able to use your feed or supplements immediately after arrival.

3. Water

All JRA facilities are furnished with complete water and sewerage service. The water from the waterworks is potable water, which more than satisfies the standards prescribed by law.

The quality of water is soft compared to North America and Europe.

XIII. HORSESHOES

1. Type of Shoes

Please note that shoes for racing must be 10 millimeters or less in thickness, 25 millimeters or less in width and 150 grams or less in weight. The JRA will check whether the shoes which are brought are permissible or not, after arrival in Japan.

The following shoes are not permitted during a race:

- a) Shoes whose calk is higher than 2 millimeters (2 millimeters is permitted) from the surface that touches the ground, and shoes whose calk on one end is sharp (i.e. Toe grabs)
- b) If there is a difference in thickness between the inner line and the outer line which is divided by the center groove, and whose surface touches the ground unevenly, the difference must be 3 millimeters or less (i.e. Rim shoes)
- c) Shoes that may pose a danger to other horses such as those with protruding object(s) attached to the bottom of the shoe, typically crampons and notches (i.e. Blocks and sticker heels)
- d) Shoes whose surface touches the ground unevenly around the circle, and are not on the same arc (i.e. Bent shoes)

Shown below are the typical images of such banned shoes:

a) Toe grab

b) Rim shoe

c) Block and sticker heel

d) Bent shoe

2. Nails and Nailing

A nail with a sharp head must not be used for shoeing. Nail heads must not protrude more than necessary (protrusion must be less than 2 millimeters).

3. Shoeing

Farriers of the JRA will be available for shoeing by request. The JRA will recommend bringing extra shoes and nails of own, in case our stock may not meet your request. Please contact the respective JRA Representative Offices for further information.

XIV. MEDICATION AND DRUGS

1. Drug Control Regulation

The JRA defines drugs or medicines that temporarily stimulate or depress race performance as 'prohibited drugs' and drugs or medicines that is restricted from the standpoint of horse welfare and injury prevention as 'restricted drugs', and prohibits horses under the influence of drugs designated as such from running. Besides those prescribed in these regulations, all matters concerning the control of drug administration to racehorses shall be prescribed by the JRA Veterinary Officer. If you wish to seek treatment after coming to Japan, consult the JRA veterinarian in charge.

A) PROHIBITED DRUGS

- a) Prohibited drugs (listed on the following page) are defined in Article 132(1) of the Horse Racing Enforcement Regulations as "drugs which temporarily stimulate or depress race performance". In the event the prohibited drugs (except for anabolic steroids) are administered to a horse, the horse concerned cannot race for a period of 10 days. However, if the prohibited drugs such as Detomidine (40) and Medetomidine (80) are administered, the horse concerned cannot race for a period of 5 days.
- b) At any time, the use of anabolic steroids is not permitted.
- c) The use of any unlisted drugs with the purpose of, or lead to temporarily stimulating or depressing race performance is prohibited.

LIST OF PROHIBITED DRUGS

(As of April 2022)

1 Acepromazine	35 Theophylline	65 Promazine
2 Adrafinil	36 Theobromine	66 Betaxolol
3 Aminophylline	37 Dextroamphetamine	67 Pemoline
4 Aminorex	38 Dexmedetomidine	68 Heroin
5 Alprenoxime	39 Testosterone	69 Benzphetamine
6 Alprenolol	40 Detomidine	70 Benzodiazepine derivatives (e.g. Oxazolam, Clorazepate dipotassium, Chlordiazepoxide, Ketazolam, Diazepam, Demoxepam, Nordazepam, Halazepam, Pinazepam, Fosazepam, Prazepam, and Medazepam)
7 Amphetaminil	41 Deprenyl	71 Pentazocine
8 Amphetamine	42 Terbutaline	72 Pentetrazol
9 Ibuprofen	43 Tramadol	73 Boldione
10 Ethanol	44 Trans- π -Oxocamphor	74 Boldenone
11 Ethylamphetamine	45 Trenbolone	75 Mesocarb
12 Ethylmorphine	46 Nandrolone	76 Methamphetamine
13 Ephedrine	47 Nikethamide	77 Methylephedrine
14 10-Oxocamphor	48 Nicotine	78 17 α -methylsteroids (e.g. Oxymetholone, Mestanolone, Metandienone, Methandriol, and Methyl-testosterone)
15 Oxprenolol	49 Barbitol	79 Methylphenidate
16 Caffeine	50 Barbiturates (e.g. Amobarbital, Allobarbitol, Cyclobarbitol, Secobarbital, Thiamylal, Thiopental, Phenobarbital, Primidone, Hexobarbital, Pentobarbital, Metharbital, and Mephobarbital)	80 Medetomidine
17 Carbamazepine		81 Methenolone
18 Camphor		82 Methoxyphenamine
19 Xylazine		83 Metoprolol
20 Quinbolone		84 Mefenorex
21 Clenbuterol	51 Bambuterol	85 Modafinil
22 Clobenzorex	52 Pipradolol	86 Morphine
23 Chlorpromazine	53 Famprofazone	87 Lisdexamphetamine
24 Chlorpromazine-Sulfoxide	54 Fenethylamine	88 Romifidine
25 Cocaine	55 Fencamine	89 Any other substance that contains or extricates any one of the above mentioned substances
26 Codeine	56 Fenproporex	
27 Choline Theophylline	57 Furazabol	
28 Salbutamol	58 Fluoxymesterone	
29 Cyclazodone	59 Brucine	
30 Dimethylamphetamine	60 Furfenorex	
31 Dimorpholamine	61 Prenylamine	
32 Stanazolol	62 Procaterol	
33 Strychnine	63 Propyonylpromazine	
34 Selegiline	64 Propranolol	

B) RESTRICTED DRUGS

- a) Restricted drugs (listed on the following page) are defined in Article 132-2(1) of the Horse Racing Enforcement Regulations as “**drugs to be restricted from the standpoint of horse welfare and injury prevention**”. The period during which a horse cannot be raced when administered controlled drugs are shown in below (list of race restriction period). Note that this includes drugs that may remain in the body for a long period of time, so care should be taken.
- b) The use of restricted drugs for which a restricted period is not indicated is not recommended. Please contact respective JRA Representative Offices for specific information.

LIST OF RESTRICTED DRUGS
(As of April 2022)
1 Glucocorticosteroids (Cortisone, Dexamethasone, Triamcinolone, Triamcinolone Acetonide, Hydrocortisone, Fludrocortisone, Prednisolone, Betamethasone, Methylprednisolone, and other substances with similar chemical structure or similar biological effect(s))
2 Non-Steroidal Anti-Inflammatory Drugs (Aspirin, Acetaminophen, Acemetacin, Aminopyrine, Antipyrine, Ampiroxicam, Amfenac, Isopropylantipyrine, Ibuprofen, Indometacin, Ethenzamide, Etodolac, Etoricoxib, Epirizole, Emorfazone, Eltenac, Oxaprozin, Oxyphenbutazone, Carprofen, Glycyrrhizinate, Ketophenylbutazone, Ketoprofen, Ketorolac, Salicylamide, Sodium Salicylate, Methyl Salicylate, Zaltoprofen, Diclofenac, Dimetiozazine, Sulindac, Sulpyrine, Celecoxib, Tiaprofenic acid, Tiaramide, Tenoxicam, Tepoxalin, Deracoxib, Tolfenamic acid, Nabumetone, Naproxen, Valdecocix, Piroxicam, Firocoxib, Phenacetin, Phenylbutazone, Felbinac, Bucolome, Pranoprofen, Flunixin, Flufenamic acid, Flurbiprofen, Proglumetacin, Vedaprofen, Meclofenamic acid, Mefenamic acid, Meloxicam, Mofezolac, Loxoprofen, Lornoxicam, Neurotropin, and other substances with similar chemical structure or similar biological effect(s))
3 Anti-allergic drugs (cyproheptadine and mesaprylene)
4 Bronchodilators (ipratropium, oxyethyltheophylline, oxypropyltheophylline, dihydroxypropyltheophylline and noscapine)
5 Gastroprokinetic agents (atropine and scopolamine)
6 Local anaesthetics (dibucaine, tetracaine, procaine and lidocaine)
7 Diuretics (furosemide)
8 Skeletal muscle relaxants (guaifenesin and methocarbamol)

LIST OF RACE RESTRICTION PERIOD			(As of January 2023)
Restricted Drugs	Race Restriction Period (Days)	Dosage and administration on the basis of which the period is set	
Atropine	3	1 milligram (mg) of atropine sulphate per horse four times a day by eye drops	
Indomethacin	3	500 mg per horse, applied once daily for 3 days	
Eltenac	14	0.5 mg per kilogram (kg) of body by weight intravenous adm. once daily for 5 days	
Carprofen	15	0.7 mg per kg of body weight by intravenous adm.	
Ketoprofen	5	2.2 mg per kg of body weight by intravenous adm. once daily for 5 days	
	10	2.2 mg per kg body weight by intramuscular adm.	
Diclofenac	5	1 mg of diclofenac sodium per kg body weight by oral adm. once daily for 3 days	
Dexamethasone	5	0.06 mg as dexamethasone sodium phosphate per kg body weight by intravenous adm.	
	8	0.05 mg per kg body weight by intramuscular adm.	
Naproxen	30	10 mg per kg body weight by oral adm. once daily for 5 days	
Filcoxib	30	0.1 mg per kg body weight by oral adm. once daily for 5 days	
Phenylbutazone	10	8.8 mg per kg body weight by intravenous adm.	
	10	4.7 mg per kg body weight by oral adm. twice daily for 5 days	
Flunixin	7	1.1 mg per kg body weight by intravenous adm.	
Prednisolone	3	1 mg per kg body weight by oral adm.	
Procaine	15	4.8 mg per kg body weight by intramuscular adm.	
Betamethasone	5	0.06 mg per kg body weight by intravenous adm.	
	6	20 mg per horse by intramuscular adm.	
	5	Inhalation 4 mg per horse once daily for 5 days	
Meloxicam	4	0.6 mg per kg body weight by intravenous adm.	
	4	0.6 mg per kg body weight by oral adm. once daily for 14 days	
Lidocaine	5	60 mg of lidocaine hydrochloride per horse by subcutaneous adm.	

(Remarks)

- 1 The number of days of the restricted period shall be calculated from the date of use of the relevant restricted drugs.
- 2 The restricted period for restricted drugs not specified in this table and the restricted period for the use of restricted drugs listed in the left-hand column of the table other than in the dosage and administration listed in the right-hand column of the table shall be as directed by the Veterinary Officer.

2. Submission of Horse Medication Record

Please submit horse medication record to the respective JRA Representative Office, using the supplied official form, no less than five (5) days prior to the horse departure for Japan, including all medications administered to the horse within 30 days prior to the departure date. Upon arrival to Japan, please submit any update of any medication administered after submission of the first medication record.

3. Veterinary Instructions regarding medical treatment

- a) No medical treatment can be given to a horse from the day before the race.
- b) Prior consultation with the veterinary officer is necessary in case a drug or medication is to be administered to a horse scheduled to run.
- c) No one except the JRA Veterinary Officer can diagnose or give treatment to the horse.

4. Medication and Pharmaceutical Products Brought into Japan

- a) Medication and pharmaceutical products brought into Japan by persons involved with scheduled runners cannot be used at JRA premises. Therefore, any such products will be kept in the JRA’s custody until after the race.
- b) A variety of products such as hot and cold compress medications (poultice), shampoo, skin protection cream, hoof oil and other products for the horse’s care will be provided by the JRA. A list of these supplies is available at each JRA Representative Office. If you want to use products other than those provided by the JRA, you must declare this in advance and obtain permission.

5. Physico-Chemical Test

a) Pre-race testing

The pre-race testing will be held upon arrival in Japan. Both blood and urine samples will be taken for analysis. Should any prohibited and/or restricted drugs be detected, the JRA reserves the right to conduct additional testing. Further, even if the pre-race testing reported negative to any prohibited substances, this does not ensure that the horse will be reported negative in the post-race testing.

b) Post-race testing

Physico-chemical tests are conducted on horses that finish first through third in the race, and any horse designated by the stewards of the meeting, under the Rules of Racing of the JRA. The horses concerned must submit urine or/and blood sample after the race. The collected samples will be divided into A and B samples. If prohibited or restricted drugs are detected, the B specimen is examined at the same institute in the presence of a disinterested physico-chemical testing expert. If the presence of the same prohibited or restricted substances are detected in both samples A and B, it will be considered as a violation of the drugs regulations. If some prohibited drugs are detected, the horse concerned will be disqualified in accordance with Article 123 of the Regulations and suspended from running in a race for a fixed period of time in accordance with Article 140 of the Regulations. The connections of the horse will not be entitled to receive any prizes, or prize money. The horse connections concerned may be charged under Article 31 of the Horse Racing Law and will be penalized in accordance to Paragraphs 138 of the JRA Rules of Racing. If some restricted drugs are detected, the person involved in the race will be sanctioned in accordance with Article 147 of the Regulations.
